

SCIENCE

We will be focussing on rocks and soils, looking at soil formation and investigating soil samples. We will work scientifically to develop our investigation skills.

FRENCH

We will be introducing the children to simple words and phrases from everyday life.

ICT

We will learn how to use basic typing skills in Microsoft Word. We will also learn about how to be safe when using the internet to search for things.

ART

In Art we will be using collaging skills to create our ideal homes. We will learn how to use a variety of mixed media to create our collages.

P.S.H.E

This term we will be focusing on settling in at a new school and exploring our feelings about the many changes that happen during our lives.

DESIGN TECHNOLOGY

We will be creating photo frames for a purpose. We will investigate current frames then design, make and evaluate our own.

R.E

As part of Hampshire's curriculum for schools, we will be learning about the miracles of Jesus and exploring the significance of angels in religious traditions.

P.E

In gymnastics we will be working individually and in pairs and groups to develop body shapes on and off apparatus. In games we will be developing striking and fielding skills such as catching, throwing, striking with a variety of bats and working cooperatively.

HISTORY

We will be learning about Stone Age, Bronze Age and Iron Age in Britain and visiting Butser Farm as part of this. We will be comparing these 3 eras of our history and learning about how people lived during these times.

Geography

Our focus will be on the Northern and Southern Hemispheres and the Equator. We will also look at the continents in these regions as well as the weather and seasons.

MUSIC

In our music lessons we will be focussing on changing dynamics in a piece of music to create different effects. We will then look at the effect of layering instruments to create interesting compositions.
